**QUALIFICATIONS FOR REBATE PROGRAM-**

To qualify for the 2019 Spring Veterinarian Rebate Program, veterinarians must be actively practicing, as well as be involved in the daily practice business to be eligible. Veterinarians must maintain valid veterinarian-client-patient relationships with customers to whom they dispense product. Qualifying products must be purchased through an authorized distributor. Entities such as swine and poultry integrators and operations on volume pricing or bids do not qualify for this program. The minimum dollar level of qualified products must be purchased during the program period to be eligible for a rebate. Clinics who have previously enrolled for the AgriLabs Veterinarian Rebate Program will be automatically enrolled in the 2019 Spring Veterinarian Program, even if a rebate was not earned. New participants must submit enrollment form attached. Veterinarians must sign up before June 30, 2019 to be eligible for rebate. Contact your sales representative for details. Participation on this program will be at the sole discretion of Huvepharma. It's the responsibility of the practice to report all affiliated or related clinics during the program period to insure accuracy of program rebates.

Cannot be combined with any other program or offer, excluding AgriCash (Fast Cash). Your rebate will be processed within 4-6 weeks of when Huvepharma receives sales data at the conclusion of the program. Purchase verification will be through reported authorized distributor sales information only. Only products that are shipped by an authorized distributor during the program period will receive a rebate. Back-ordered products do not qualify for the rebate. Huvepharma reserves the right to change this program at any time and for any reason without notice. Failure to comply with any and all terms of this program will result in the forfeiture of rebate payment and will be at the sole discretion of Huvepharma.
